Hi Jenny,

Looks like my day just opened up. I'm here all day except 2-3:30, unless i hear back from the Tribes saying they want to meet at 1 to go over the BiOp. I'll let you know if my 1 o'clock fills up.

Thanks,
Emi

Hi Jenny,

I wanted to ask you about how the interim temp limit was set. The fact sheet seems to indicate that the use of 95th percentile of data points only applies to mass loading effluent limit, so I assume that doesn't apply to temperature limits...

I'm free 11-1 and 2-3 on Monday if you're available to chat on the phone. Otherwise, I'm relatively free on Tuesday.

Thanks,
Emi
